

# TRINETRA

## Reviving the Vision

*"Lighting the Path to Brighter Futures"*

### **Our Aim:**

At JSR Group City, our aim with the transformative initiative of TRINETRA (Reviving the Vision) is to extend compassionate eye care to rural communities, where it is often lacking. We are driven by the sincere commitment to bring the gift of sight to those who need it the most. By providing comprehensive eye care services, including vision testing, provision of lenses, and arranging essential surgeries, we aspire to illuminate lives and open doors to a brighter future.

TRINETRA is not just a program; it embodies our core purpose to restore the vision of individuals who have been underserved in terms of eye health. With a holistic approach, this initiative strives to ensure that every individual, regardless of their background or circumstances, can experience the world with clear and unclouded eyes.

Through TRINETRA, we intend to break down the barriers that prevent access to quality eye care. We firmly believe that everyone deserves the opportunity to have good vision and a chance at a better life. Our aim is to create a positive impact on the lives of those in need by not only addressing their immediate eye care requirements but also by fostering awareness about eye health, proper nutrition, and preventive measures within rural communities.

As we dedicate ourselves to the cause of eye care, TRINETRA stands as a guiding light, illuminating the way to a future where enhanced vision means enhanced opportunities. With unwavering compassion, we strive to realize a world where improved eyesight transforms lives, making a tangible difference in the present and sowing seeds of hope for generations to come. Our Aim.
